TWO NEW MUSIC BOOKS.

ROOT'S SCHOOL FOR THE MELODEON, HARMON, MILM, AND CABINET ORGAN, consisting of Programs free Leesons, Studies and Scales; Songs, Duets. Trios, and Construct, Voluntaries. Interlocks, and Recreasive Pieces for the Arrivant Choir; carefully prepared with reference to the advancement of Learners, both in Technical Ability and Taste as well as the True Development of the Powers and Beauties of these instruments. By George F. Root.

This work is not a complication from Plane-Forte instructers, but its arrangements are all carefully adapted to the survey of the instruments for which it is designed. Beginning with the simplest lessons possible, one thing is in two compliants. Would do well to precure a copy of this Book and read especially pages 113, 114, 115, and 224 to 209. To be add in this City only of the Pathistic Compliants with the simplest lessons possible, one thing is labored. It varies very materially from a previous instructors for these instruments, and it is hoped will be found to supply a want long felt by learners and teachers. It will make a volume of 164 quarto pages. Frice 52.
